

Nondiscrimination Policy and Philosophy of Care

Nondiscrimination Policy

Comprehensive Care of Kansas, LLC is committed to providing equitable, high-quality healthcare in a respectful and inclusive environment. We do not discriminate against or tolerate harassment of any individual on the basis of race, color, national origin, language, religion, sex, age, disability, citizenship, veteran status, marital status, creed, sexual orientation, gender identity or expression, or any other characteristic protected by applicable federal or state law, or any non-medically relevant factor.

Discrimination or harassment by staff, providers, vendors, or patients is strictly prohibited and will not be tolerated. Any patient who violates this policy may be subject to dismissal from the practice.

All patients will be treated with dignity, compassion, and respect. We honor and respect each individual's gender identity and expression, and we will use the name and pronouns that each patient identifies as their own.

Philosophy of Care

The welfare of our patients is the foundation of every decision we make. We are committed to practicing with beneficence—always acting in the best interest of those we serve—while fostering a compassionate, respectful, and ethical patient-provider relationship.

We honor the rights and dignity of our patients, as well as our colleagues and fellow healthcare professionals. Central to our philosophy is respect for patient autonomy: each individual has the right to make informed decisions about their own healthcare.

We welcome the involvement of individuals you choose to include in your care. With your permission, we are happy to discuss your health in the presence of those attending your appointments. Additionally, you will have the opportunity to designate, in writing, individuals with whom we may share your health information outside of your visits.
